

Attention all Ladies!

The best Innovation since Botox is here. No more injections, get the results You want without the pain or expense!

"Finally a product that you can apply directly to mimic lines that actually reverses the look of them and prevents the formation of more individual lines - and is backed by scientific proof it works and works immediately" - Tracy Orr

Its Creation

We are extremely excited to be the only salon in Launceston that is now able to offer you Elixir Lift by La Biosthetique. This unique product was created in Germany as an alternative to Botox. If you want to reverse the looks of mimic lines (wrinkles!) around the eyes and mouth without painful injections then you need Elixir Lift.

How It Works

Elixir Lift contains a high dosage of biopeptides from the Hibiscus plant. This concentrate attaches itself to the transmission point between the nerve cell and muscle and prevents the signal transmission. In plain speaking the muscle does not receive the message from the brain to tense up - so your facial features remain relaxed.

The Clinically Proven Result

Clinical tests proved that Elixir Lift works. When applied twice a day.

- After just 60 minutes lines are reduced by up to 38%
- After just 7 days use lines are reduced by up to 52%

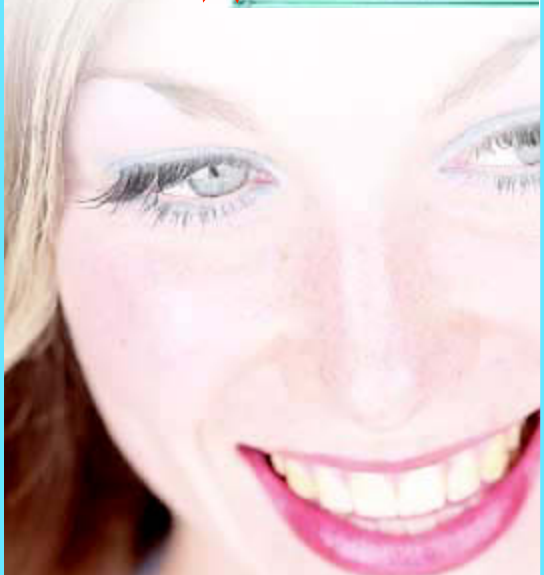

Our Guarantee

We know this product works and we know you will love it too. However, if you are not completely satisfied with your purchase of Elixir Lift - simply return the unused portion within 8 days and we will completely refund your money!

It's All About You . . .

- Do you worry about lines around your eyes or lips?
- Have you tried lots of different eye/lip creams and got minimal results?
- Do you sneak in the odd injection of Botox?
- Do you want a younger appearance?
- Do you want to finally be able to use a product that won't break the bank and gives you results quick?
- Do you want assurance that the product you are buying is backed by a 100% money back guarantee?
- Are you approaching and/or over thirty?

If you have answered yes to these simple questions then you need to start using Elixir Lift as soon as possible!
