# GOJI GOJI GOJI GO!

**Taste it, Like it, Drink It,  
Benefit from it!**

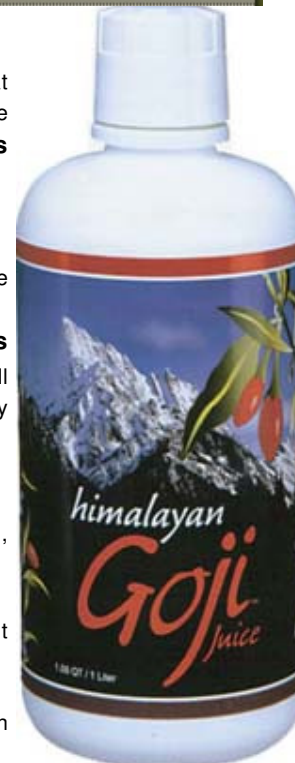

A recent scientific study has revealed that many of the world's longest living people consume regular daily helpings of a tiny red fruit that may be the world's most powerful food—the goji berry. What is it about the goji berry that makes it so beneficial to human wellness and vitality? **This tiny fruit revealed itself to be quite possibly the most nutritionally dense food on earth.**

Goji juice contains 19 kinds of amino acids and up to 21 trace minerals, the main ones being zinc, iron, copper, calcium, germanium, selenium and phosphorous. They contain more beta carotene than carrots and **500 times the vitamin C than oranges**. They contain vitamins B1, B2, B6 as well as Vitamin E, which is rarely found in plants. They contain iron and an array of powerful phytochemicals.

Amazingly the fruits also contain Betaine (which is used by the liver to produce Choline, a compound that **calms** nervousness), and Linoleic Acid, which promotes a **decrease in body fats**.

There are many different (and inferior) brands of Goji Juice on the market today. However, only Himalayan Goji Juice was developed by Dr. Earl Mindell and uses a molecular fingerprinting technique to single out the highest-quality, most nutrient dense berries with the highest absorption in humans! This assures you that the quality of the Goji Berry Juice is consistent each and every time.

***You can now buy Your PURE HIMALAYAN GOJI JUICE here.***

Our staff have been drinking and testing Goji Juice and loving it. Some of the benefits that we have seen is increased energy and vitality, clearer skin, and best of all FLATTER stomachs (even Chels!) and no bloat! We love it and so will you. With this months special it is a great time to start seeing the benefits for yourself....
