What a busy month

September has been in the salon. This month we launch lots of new things in the salon, products and treatments. We are also running a complete new salon management software system so here is hoping we don't have the same problems with gremlins! The new system is great. Best of all you can now send us text messages! Anything you want to know, any appointment questions, any appointment changes simply SMS text us from your phone and bob's your uncle! Give it a try or just say hi! The salon TXT phone number is 0409532938. Just send as a normal message! Enjoy the technology...

## Glam it up, prepare for Summer

## Who wants to be 40% Fatter?

No many takers huh?

What if we told you it was your lips we can make 40% fatter! Different now isn't it. We were not all born with the lips of Angelina Jolie (damn!) but now you can have them and what's even better is you can have them without the assistance of surgery or needles!

Just in from Belevance are their new range of lip boosters. Apply them on their own or under or over your gloss or lipstick for a perfect pout.

Guaranteed to puff your lips by 40%.

### Go ahead be 40% fatter today!

#### Gratuitous PLUG!

We don't often (in fact have never) plugged another business in our newsletter. However, I love great service and so am doing it off my own back for the first time ever. Recently my husband decided to treat me to a great big fat ring of diamonds. After traipsing around a few jewelers who were not helpful (stupid given I wanted 18 diamonds and to spend an absolute fortune of my husbands money) I stumbled into Watson's and spoke with Neil. He not only sat with me and helped me with the design I had in my head get put onto paper, but it was no problem to order the diamonds, cut the ring, go the extra mile and produce my dream into reality in less than 14 days in time for my birthday (of course being a woman I wanted it yesterday!). That is star service and a big plug to him and his team. If any of you are in the market for a treat I can not recommend him or his team high enough.

**Thanks NEIL you are a STAR and of course everyone else at Watson's that helped!**

This month we focus on LIGHT...

# FREE Consults

Did you know that the most advanced technology IN THE WORLD for permanent hair reduction is here at YOUR salon?

Light Fantastic

Ultra VPL™ is the latest advance in pioneering Variable Pulsed Light technology. In fact it is the most advanced technology in the world today and is available right here at your salon. We were the first salon in Tasmania to bring this technology to the state and we lead the way in its use, results and treatment outcomes.

Too many times we hear from clients that have tried inferior methods of IPL etc. at other salons and so this month we bring you the low down on Photothermal based treatments for permanent hair reduction and facial rejuvenation. Then in keeping with our promise to bring you at least 6 treatment or product specials a month we have created some great packages for you.

## Facial Rejuvenation

The Ultra VPL™ treatment uses short safe controlled pulses of filtered light to rejuvenate your skin. Ultra VPL™ offers safe, non-surgical treatment for many skin conditions brought about by age or over-exposure to the sun. It is also very effective on facial scars caused by acne.

**Sun, liver and age spots**  
**Thread veins, spider naevi and cherry spots**  
**Wrinkles and fine lines**  
**Acne Scarring**

These are just a few of the conditions that can be treated right here. How does it work?

Sun, liver and age spots: Are conditions which usually appear in later years. These are all caused by an excess amount of melanin, the pigment which determines our hair and skin colour. Melanin absorbs the light energy from the Ultra VPL™ and heats up quickly, whilst the surrounding skin stays cool. The heat means that the particles of melanin break into smaller particles, that are then removed by your body's natural waste processes, leaving your skin clear and smooth.

Thread veins, spider naevi and cherry spots: Are conditions where small veins become visible on your skins surface. Light energy is absorbed by the blood vessels that make up these imperfections. This absorption process breaks down the vessel walls. Effective Ultra VPL™ treatments allow your body to recognise these broken vessels as waste and removes them naturally.

Wrinkles and fine lines: Collagen is the substance in our bodies that keeps your skin looking youthful and smooth. As you age, your body naturally produce less and less collagen, resulting in the appearance of fine lines and wrinkles. The light from the Ultra VPL™ stimulates cells in the body called fibroblasts to produce more collagen. The new collagen moves outwards to the skins surface resulting in smoother texture, smaller pore size and reduced fine lines and wrinkles.

Acne scarring: Acne is caused by excess sebum, an oil naturally produced by your body which clogs up pores and causes infection. Over long periods this can also result in acne scarring. Ultra VPL™ improves both active acne and acne scarring by destroying the bacteria that causes the infection. Acne is healed significantly following a course of treatments and skin texture, tone and scarring is improved.

## Hair Reduction

The Ultra VPL™ treatment uses pulses of red light which are absorbed by melanin, the pigment found in your hair. This absorption process produces heat, which travels down the hair shaft destroying the follicle, along with its ability to regenerate. Hundreds of hair follicles are destroyed with each pulse, resulting in a painless, easy and effective way to treat your unwanted hair.
